Public attendee Kelly Wenrich commented on her love for the High Sierra Dog Park, how often she takes her dog there and how she would like to make it nicer. Mr. Pigg said for Ms. Wenrich to set up a time with staff to discuss improvements to the park.

NEW BUSINESS:

A. Cemetery Code Changes Update:

Cemetery Supervisor Brandon Schmidt said he has received a request to add a bronze plaque to a headstone located in Mountview Cemetery. Mr. Schmidt said the City’s Cemetery Ordinance does not permit that. He is proposing to change the city ordinance to include the placement of bronze plaque on headstones along with other additional changes. See **(Attachment C)** for his proposed changes to the ordinance.

Mr. Schmidt requested the board’s approval of his proposed changes and to send it to City Council for their approval.

Board member Clark commented that the ordinance does not give a date as to when an individual can start adding flowers for Memorial Day. Mr. Schmidt said they can start May 15th and will look at adding that to the ordinance.

Board member Henderson suggested that under section 8-326 include language for “other holidays”. Mr. Schmidt said he did not want to list every holiday for every culture. Board member Drager suggested changing the working from “holiday decorations” to the word “cultural decorations”.

Chairman MacLean requested a motion on the presented proposed updated Cemetery Ordinance. Board member Jami Clark made a motion to accept the proposed ordinance with the Park Board changes be presented to City Council for approval. Board member Laura Drager seconded. On a voice vote, all were in favor and motion passed.

Board member Clark asked if the Cottonwood Master Plan been presented to City Council yet. Mr. Pigg said no but it should be sometime in January.

D. CPTED Update:

Parks Vista Inanna Hencke presented the Crime Prevention Through Environmental Design (CPTED) priority parks review PowerPoint. **(Attachment D)** Ms. Hencke is working on spending CPTED funding on lighting at North. The project is to do a complete illumination of solar-compatible areas with 19 solar lights. Total cost for the lights, parts and labor is \$95,000. Also included in this project is to remove the handball courts and replace them with permanent chess and table tennis. Cost for that project is \$20,000.

She said their next project if approved for additional CPTED funding would be South Park.

Board member Clark asked if the recently installed lights at Comanche Park solar. Ms. Hencke said yes.

A question was asked how big of an area would a one solar light cover. Response was that it would cover 90 feet.

E. Tree Board Discussion:

Mr. Pigg discussed putting together a Tree Board as part of conditions using the \$1 million tree grant fund. City Forester Steve McConnell and Mike are working together on the language for the Tree Board's creation documents. The Tree Board will be 100% dedicated to all the city's forestry not just parks forestry.

Board member Drager asked if the Tree Board would report to the Park Board. Mr. Pigg said no, it is a completely separate board.

Board Chair MacLean asked how many trees would \$1 million buy. Mr. Pigg said the grant money does not just cover for the buying of trees but also for the health of trees such as pruning and tree removal and educating the community. Mr. Pigg said that Steve McConnell is hoping to buy at least 2,000 trees with the funds.

F. Parks Board Discussion:

Board member Clark asked if there was a possibility of doing some matching grant funds in FY25. Mr. Pigg said there has been some Council discussion on seeing the program come back. He said some of his concerns though, is that the department has a number of “asks” that we need to do for our park’s maintenance and recreation division. He said this department is way understaffed, way underfunded, and he would hate to give up funds to projects/build things in a park and we cannot maintain or have enough staff for it.

Board member Clark said there has been a delay in the installation of the shade structures along the Skyline Trail. She said due to the very specific Federal rules that the structures must be American made, the Skyline trail must be complete, and the inner belt loop road must be complete, they do not expect to have the shade structures installed until sometime in June.

AJOURNMENT – Meeting adjourned at 12:54 PM

(Please note these are summary minutes; this meeting is audio recorded and available to the public for any additional information discussed)

2024 PRPL Community & Senior Center Plan for Expanding Senior Services

Here to help seniors age in place with grace and make aging fun!

In the last 5 years we have seen a shift in program and service participation. We have gone from a 60% sedentary programs and 40% active class participation. Now we see it has flipped to 60% active and 40% sedentary. We have done this by increasing program opportunities on site and with partnering with Adult Resource Alliance to provide programs outside these walls.

Our focus has been to help seniors age in place with grace has been to help seniors stay strong and healthy. Falling is not a normal part of aging it is largely due to being inactive. "Nearly, one out of three Montanans over the age of 65 fall each year. Falls are the leading cause of fatal and non-fatal injuries in older adults. Falls are costly-in dollars and in quality of life. Most common injuries sustained from a fall are hip fractures, broken bones, and head injuries. In Montana, unintentional falls is the third most common cause of injury-related deaths." - <https://dphhs.mt.gov/>

Previous Years

2022 - Increase in program participation by 32% with our partnership with Adult Resource Alliance. Was able to added in more inclusive classes that helped activate seniors from their chair. Added in several new classes at the two Adult Resource Al

2023- Increase in program participation by 7%. This is the current total. This has been done by increasing participation in current classes. Our focus has been in promoting our existing classes and bringing on instructors to continue to run and expand programming.

Sec. 8-327. - Injuring plants prohibited.

Picking the flowers, breaking or injuring trees or plants or any other property within the cemetery is prohibited.

Commented [DG3]: This section could be clarified a bit. Do these "exceptions" need to be approved by cemetery staff or are the regulations set forth in the subsequent sentences sufficient for visitors to place decorations?

I'm happy to make some suggestions if I understand better what is intended.

Commented [SB4R3]: I have changed the formatting of this section, which hopefully cleared it up. Intent of this section is to codify when and where people place flowers/decorations. This is done so cemetery staff can efficiently maintain the cemetery, and reduces the chance of running decorations over with equipment. It is not my intent to require individual approval from cemetery staff for each exception. I believe the regulations are sufficient.

Commented [DG5R3]: Looks good, thanks for the clarification.

8-328. - Cemetery traffic.

Posted speed limit in the cemetery is fifteen (15) miles per hour. Faster driving will not be allowed. Vehicles must remain on designated roads within the cemetery. Parking is allowed on any of the roads within the cemetery.

Sec. 8-329. - Picnics and unattended children prohibited.

Children, unless accompanied by an adult, shall not be admitted to the grounds. Picnic parties are prohibited.

Sec. 8-330. - Dogs prohibited.

Dogs shall not be admitted to the grounds of the cemetery, except upon a leash and shall be kept on the roadways only

Sec. 8-331. - Monument regulations.

(a) Only one (1) upright monument shall be erected at the head end of the graves so that the monument is centered on two (2) or more graves. The upright monument shall be not less than twenty-eight (28) inches in height or exceed forty-two (42) inches in height. All other grave markers shall be placed flush with the ground surface.

(b) All upright monuments and flat grave markers shall be of natural granite except those specified by the federal government in the veteran sections. ~~No bronze plaques or metal plates shall be attached to the natural granite.~~

(c) Bronze plaques may be attached to granite markers, provided they are affixed to the marker with metal studs. Placement of any bronze plaque shall be completed by a bonded monument company after receiving a monument permit from the cemetery supervisor. The city is not responsible for any damage to a marker while attaching a plaque or any lost or stolen plaques.

~~(de)~~ All upright monuments shall have a foundation of concrete that is thirty (30) inches deep and eight (8) inches wider on each side than the dimensions of the base of the monument. All flat grave markers shall have a foundation of concrete that is twenty-four (24) inches deep, and eight (8) inches wider than the dimensions of the stone. Where there is to be a flower container set in the foundation, the side of the stone that the flower container is to be set, the foundation collar shall extend thirteen (13) inches from the stone, and seven (7) inches deep. The base of the upright monument or the flat grave marker shall be wet set into the concrete foundation.

~~(ed)~~ In the cremation section only flat markers shall be used. In a single cremation grave the stone itself can only measure eight (8) inches by sixteen (16) inches. Double cremation graves may have a twelve-inch (12) by twenty-four inch (24) stone centered on the graves. The foundations for the markers shall be twelve (12) inches deep and

surround the stone so that the stone has an eight-inch (8) border on three sides and a thirteen-inch (13) border on the side where the flower container is placed.

(ef) In the baby sections only flat markers shall be used. Because all of the graves are single gravesites and the graves smaller than the traditional grave, the largest flat stone that can be used in the baby section is ten (10) inches by twenty (20) inches or smaller. At no time can the foundation of the stone run over the grave boundary to its neighboring gravesite.

(fg) Mausoleums and vaults above ground may be erected only with the consent of the city after all plans and materials have been approved by the city.

(gh) All work must be under the inspection of the city and completed as rapidly as possible. Materials not used must be removed as the work is completed.

(hi) No materials of any kind shall be received after noon on Saturdays.

(ij) Any person desiring to set a monument or marker or build a foundation for that purpose or modify an existing stone, must, before commencing such work, obtain from the cemetery office a permit authorizing such construction. The cemetery office shall not issue a permit required by this division until the applicant has obtained a business license and furnish to the city a surety bond in the amount of \$10,000.00 dollars, which shall be held by the city as a guarantee that the work will be done in a satisfactory manner. The bond shall provide that the applicant will in good faith perform all that the city requires. Continuation certificates to renew the surety bond will not be accepted. Such bond shall be filed with the city clerk. The city shall determine whether or not a monument or foundation has been satisfactorily constructed and set.

(jk) Any person desiring to set a monument or marker or build a foundation for that purpose, shall have all the necessary tools and equipment that are recognized by the monument setting industry.

(kl) In setting a monument or marker or building a foundation, the contractor shall be liable for any damage to other people's property or to general appearance of the cemetery. The contractor shall be responsible for leaving the cemetery in the same general condition as it was before setting the stone.

(lm) Nothing herein shall be construed in any manner to limit the liability of any person engaged in the business of setting monuments or markers, or building foundations for them, for damages in excess of the amount required by the surety bond, nor shall the surety bond be construed to limit the right of any individual who has been damaged by any setting of a monument or marker or building a foundation from bringing an action without regard to the conditions of this provision.

(m) Monuments and markers are personal property and therefore the responsibility of the grave owner. It is the responsibility of the grave owner to notify the cemetery of any change in mailing address or ownership of the grave so that the cemetery can contact them. Notice sent to an owner at the last address on file in the cemetery office shall be considered sufficient and proper legal notification. The monument permit must have the name and address of the person ordering the stone.

(n) In the event that the owners of a monument cannot be contacted, the city or their agents may modify monuments within the cemetery that present a public safety hazard or detract from the overall appearance of the cemetery.

(o) The city or their agents shall not be held liable if a monument in danger of falling is damaged in the process of modifying the stone to correct the safety hazard.

TERRITORIAL REINFORCEMENT

DELINEATION

Parks are mostly well-defined from their surroundings and effectively use barriers and other design features to designate different usage areas.

Maintenance issues and vandalism are evident.

There is a general lack of dispersed public art.
