<b>TOPIC # 1</b>	Nutrient/Wasterwater Update
Louis Engels	
<b>NOTES / OUTCOME:</b>	<p><b>Legislative Committee</b> – Immediate action requested. The Legislative Committee met in a special session this week to discuss an urgent issue before the Water Policy Interim Committee (WPIC) at the state legislature. Your action is requested NO LATER than <b>June 10, 2024</b>.</p> <p><b>The issue:</b> WPIC (Water Policy Interim Committee) recently voted in favor of new DEQ regulations that will require Billings to build a new \$100 million+ drinking water treatment plant at the end of the wastewater treatment plant.</p> <p><b>Analysis:</b> Based on multi-year studies of river water both upstream and downstream, Billings Water Quality Superintendent Louis Engels has determined this regulation will mean little-to-no water quality improvement for Billings residents (our water quality is already exceptional)—nor to the river as a whole. Of note: environmental groups also oppose these rules moving forward.</p> <p><b>The ask:</b> Call the Yellowstone County caucus, then call them again. Ask all representatives/senators to contact WPIC members and object to these rules before June 10, 2024. The committee needs to <b>invoke formal rule authority by the interim committee to STOP implementation.</b></p> <p><b>Timeline:</b> June 10, 2024. This will not go to the legislature. This is the last chance.</p>
