FY Budget Status
Cochran discussed the upcoming construction mediation to be held the first week of April. He noted that he was hopeful that some funds will be recovered for the additional expenses.

Cochran discussed the Library’s obligated reserve funds as well as the unobligated funds. He noted that staff identified $85,000 in deferred spending for the current fiscal year in an effort to minimize the use of cash reserves.

Cochran noted that once again the guideline for the FY16 budget is a zero percent increase in the O&M budget. He noted that all increases have to be submitted for review by the City Administrator and Finance Department as a supplemental budget request. He reported that supplemental budget requests were submitted for:

- A strategic planning process - $35,000
- TECH Lab seasonal employee - $29,500
- Vista Volunteers - $4,900
- Funds to help pay for a replacement vehicle - $3,000

Cochran discussed the role of the Programming Committee. There was a consensus that programming is a staff function and not a role of the Board.

MOTION: Eliminate the Programming Committee.

Cochran suggested that the Ad Hoc Time Capsule Committee be renamed to the Rededication Committee and that it become active again in preparation for the upcoming rededication of the facility.

**Board Retreat Report**
Cochran noted that Terri Profota with Sage Solutions Nonprofit Consulting submitted a copy of her retreat notes. He discussed the tasks that already had been accomplished by the Board. He also discussed the upcoming strategic plan and noted that four market segmentation software companies had been reviewed by the managers. Cochran noted that using a combination of the *The New Planning for Results* process with market segmentation software data would be a more effective approach. He asked for Board discussion on the broad direction, components, and timetable for the strategic planning process and its goals to take place in coming months.
