Girl Scouts of Montana & Wyoming

Four summer associates served in 2013 focusing on the following initiatives:

- Summer Learning Curriculum including science, technology, engineering, and math topics
- Mentor Programming
- Marketing Plans
- Community Assessments

QUICK FACTS:

- Over \$250 generated
- 16 volunteers recruited & trained
- 10 new services

“Without our BMVP VISTAs, many girls would not have had the opportunity to participate in Girl Scouts

-missing out on the chance to become ‘girls of courage, confidence, and character who make the world a better place.’ Our VISTAs allowed us to grow our program throughout the summer, preventing the traditional decline in participation that occurs as the school year finishes. We were able to provide weekly programming and day camps that allowed us to reach many girls who wouldn’t have been able to participate otherwise, whether through time constraints or lack of access. With our VISTAs, we brought the Girl Scout Leadership Experience to underserved girls on the reservation and in Billings. Girls were able to develop leadership skills and discover the impact they could have on their communities and their futures.”

Stephanie Lefevre, Membership Volunteer Program Director
