Fund 4060 - Airport - Customer Facilities Capital Fund (CFC)			

The Airport is requesting a budget amendment to its CFC Capital Fund. The **Airport Car Rental Transfer Lot** project was included in the Airport's FY14 Capital Improvement Program, however due to the number of projects and the lower priority of the project the Airport's engineering firm was unable to complete design work in time to get the project bid in FY14. This lot will be used by the "On Airport" car rental companies to load and unload rental cars that are delivered just before the peak summer season and removed during the autumn and winter months. The constructed lot will have a 72,000 s.f. asphalt surface located adjacent to the QTA and away from traffic areas.

This amendment is for the fencing and lighting portion of the project.

The CFC Capital Fund has sufficient funds to complete this project.

Public Works is requesting a budget amendment to increase budget authority for the local share portion of two Community Transportation Enhancement Program (CTEP) projects. The construction costs of the Swords Park/6th Avenue North and the Poly Drive School Pedestrian Improvements projects are both projected to be in excess of original project estimates. CTEP funds 86.58% of these projects and the remaining 13.42% is funded with local share contributions from Bikenet and School District #2.

8400-Storm Sewer

Public Works is requesting a budget amendment to increase budget authority for the East End Storm Sewer project. This project was funded with revenue bonds and supplemented with storm funds. The revenue bonds will be paid back over the next twenty years from storm revenues. Because there was sufficient cash in the Storm Fund, Public Works maximized the storm fund amount available to contribute towards the project and decreased the amount of the bonds needed in order to save on debt service costs.
