Crime Rates (per 1,000)* Vs Crime Numbers

Crime Rates

On the next six pages, the crime rate (rate per 1,000 persons) for each major offense category (robbery, residential burglary, DUI/AGG DUI, MV theft, assault and drugs) was calculated for each task force area. This allows for better comparison of crime activity between task force areas of varying land areas.

How to Interpret the Charts

In the chart to the right, Pioneer Park had two assaults, several assaults less than Central Terry or the Heights. However, Pioneer Park has a smaller population size so the assault rate is higher than that of Central Terry or the Heights.

*Take the crime rates with a grain of salt. Population counts for each task force area were estimated using US Census 2017 American Community Survey 5-year population estimates for block groups. These are population estimates using sample data (versus the decennial census, which is an actual count). Also, the census block groups do not match the boundaries of the task force areas creating an even larger margin of error for the population estimates in each task force area.
