Mountain Health Gives

Billings Metro VISTA Members have played a vital role in planning and promoting programs with Mountain Health Gives.

Starting in 2022, the Billings Metro VISTA Project began a project with Mountain Health Gives aimed at increasing health care access for low-income Montanans. This project involved the development of a new organization program called Little Peeps, in which Mountain Health Gives partnered with schools and local optometrists to provide eye care for students in need. The project also involved assessing community healthcare needs to inform new initiatives.
