### **New Business**

David Shenton spoke briefly on city codes and subdivision covenants. He stated that due to the covenants in his subdivision being so old and not pertaining to current issues that Gregory Hills rewrote theirs. He is offering to share the rewritten covenants to other subdivisions who are interested in using the modifications as a template to rewrite covenants for their own subdivisions.

Sergeant Gunther of the Billings PD, said that there have been approximately 150 incidents, mostly traffic violations, from within the task force area since March. He then took questions.

Scott Aspenlieder - MDOT Commissioner talked about the Highway 3 Corridor Study. He said that he had just gotten a draft of the results yesterday, with more information next month. The study focused on the area from the airport west past Zimmerman Trail and that there will be a project that comes out of the study. He could not elaborate on the project. However, there is no current city land use plan for the study. Scott also talked about the 3 new school zones in Billings and said the flashing lights are scheduled to be installed in October. He mentioned a big project that is in development for Shiloh to 54th on Rimrock Rd. As well as a master corridor study of Billings, to determine types of corridors and then modifying the area for that specific type of transportation.

Members of Stage Coach Trail were also in attendance and were available for questions, regarding the proposed bike trail, after the meeting.

Mayoral and City Council candidates would also be available for questions after the meeting.

The meeting was adjourned.
